

Egg Crate (EC) Grille

Refer to product table below for applicable product codes covered by this document

Issue **A**

Product Type & Application

Bradford Ventilation Egg Crate (EC) Grille is an internal ventilation duct fascia designed to allow air to be drawn from the enclosed area of a building to its roof cavity.

Compliance with the NCC

There are no relevant clauses within the NCC for this product to comply with.

Evidence of Suitability

There are no relevant clauses within the NCC to show compliance with.

Conditions of Storage, Use & Maintenance

- Store in the original packaging in a cool and dry area.
- The grille must be cleaned regularly to maintain product flowrate.
- Do not attempt to repair – contact Bradford Ventilation for service advice.

Refer to the product warranty at bradfordventilation.com.au for more information.

Limitations of Use

- Do not use for exhausting hazardous, abrasive, acidic and alkaline vapour or areas containing explosive or corrosive materials.
- Product flow rate will be reduced if grille opening is not adequately maintained.
- The product is designed to be used in conjunction with roof ventilation system.
- Suitable for interior use only.
- **IMPORTANT** - Do Not Modify This Product: Performance and safety are only achieved by the product or configuration listed in this PTS.

Specific Design or Installation Instructions

- Installation must be in accordance with the product Installation Instruction.
- The grille openings should be periodically inspected to remove foreign objects and/or dust build-up to maintain airflow.
- Ensure that the grille is installed in an area where it is not obstructed or restricted by the building structure.
- It is recommended that the EC Grille be installed in conjunction with the Bradford Ventilation range of Hurricane and EcoPower Ventilators.

For general installation guidance refer to the product installation guide at www.bradfordventilation.com.au
